Thesis Proposal Committee

Please submit to the Robotics Graduate Coordinator at um-robotics@umich.edu

Name: (print) ____________________________________________________________

UMID: __________________________ Email: ________________________________

Depth area:  □ Sensing  □ Reasoning  □ Acting

Please consider the following for my Thesis Proposal Committee:

The committee must consist of four or more members; at least two of the members must be affiliated with the Robotics program.

One of the Committee members must be designated as "cognate member." Cognate members must be a tenured-track faculty in a Rackham graduate program and be primarily engaged in a research area outside of the candidate’s.

Chair/Co-Chairs:

Name ___________________________ Rank/Title ___________________________ Department ___________________________

Name ___________________________ Rank/Title ___________________________ Department ___________________________

Cognate member:

Name ___________________________ Rank/Title ___________________________ Department ___________________________

Other member(s):

Name ___________________________ Rank/Title ___________________________ Department ___________________________

Name ___________________________ Rank/Title ___________________________ Department ___________________________

Name ___________________________ Rank/Title ___________________________ Department ___________________________

Thesis Proposal Title: __________________________________________________________

☐ I will use the committee as my Dissertation Committee.

☐ I will NOT use this committee as my Dissertation Committee (you must form your dissertation committee within 48 months of entering the Robotics PhD program)

Robotics Grad Chair: ___________________________ Date: ___________________________
Thesis Proposal Presentation
Please print and bring to your thesis presentation

TITLE: ________________________________

_________________________ has presented a Ph.D. Thesis proposal on ________

☐ 1) Thesis Proposal presentation was satisfactory

☐ 2) Student did not present an acceptable proposal and will take immediate steps to refine the proposal.
